To: BPIP Info <bpipinfo@gmail.com>

Hi all,

Please see the message below inviting you to complete a survey being conducted by the UKIPO. Apologies if you have already received this invitation from other sources:

---

"The UKIPO's Transformation programme has moved into its next phase called Research IP - more information can be found on our Transformation prospectus [here](#).

We are in the Discovery phase of Research IP and are interested to learn more about how the UKIPO's registers and journals are used to search for IP right information. This will help us further understand the needs and challenges users face when using the UKIPO's registers and journals to search for patent, trade mark and design information.

Please find below a link to a short survey which asks questions around the frequency of use, reasons and thoughts our users have whilst using the UKIPO services to search for IP right information. The survey also asks those that take part if they would like to take part in further research and leave contact details if so.

Please note, the survey provider we use in the UKIPO is **Questback**."
