Please see the email below from the CEPIUG

The CEPIUG is pleased to announce a series of two webinars on the use of the information sources of the Italian Patent Office. These webinars will take place on October 17th and 18th from 3-5pm CET (2-4 BST).

Organised by the AIDB on behalf of the CEPIUG, these webinars will cover aspects of the Italian patent system and will introduce and demonstrate the tools provided by the Italian Patent Office for searching Italian patents.

More information and registration details will follow; for now we wanted you to be able to add a placeholder to your diaries. Registration will be free to all, with National User Group members whose User Group is affiliated to the CEPIUG given priority registration.

We hope that these two seminars will be the first of an occasional series of webinars covering the specific patent systems and information sources of a range of countries, initially focussing on those countries where the CEPIUG has members or countries of specific interest to members.

Suggestions for future seminars and offers of help will be gratefully received. Please contact secretary@cepiug.org to share your ideas or to volunteer to help organise future events.
